Republican State Convention. We publish this morning the call by the chairman of the State Central Committee for a State Convention of the Republican party, to nicet on Wednesday, June 4th, at Madison. The objects large, and three from each Congressional district, to represent Wisconsin in the National Convention, and "the thorough re-organization of the Republican party in the State."

With these objects in view, it is to be Loped that the friends of Freedom throughout every district in our State will appreciate the necessity of active effort, and a concentration of energies in their respective neighborhoods, so that, while none but true Republicans are sent to Madison, there shall be present at that occasion two delegates from each Assembly district in the State, rendy to act together for the common good. We have already had one State Convention, with every District represented. Let us have another this year, with its members animated by a good spirit, and we think we may safely set down Wisconsin as saie for the candidate of Freedom, whoever he may be.

827,226 28 The receipts of this company for the month of march are large beyond all precedent for so new a road, and at a season of the year when the earnings of all our roads are unusually light. The Company commenced operating their road to Uak Grove station (50 miles from Milwaukee) on the 20th ult., prior to which time they were run, ning to Horicon, 51 miles. The work of laying track was resumed on the 1st inst. and is being vigorously prosecuted, and the Company expect to have the road in operation to Beaver Dum by

the 15th inst. When the road is completed to that point the Company will have in operation 62 miles of road, the earnings of which per mile, we venture to predict, will not be exceeded by any other road

in the northwest. We announced to our scaders a few weeks since that the Company had concluded a contract with Mr. PERKINS for four thousand tons of iron, being all that will be requisite for the main track to Portage City, and leaving a large surplus for side We are now authorized to say that they have within a few days consummated a contract with Mr. SELAH CHAMBERLAIN of Cleveland, and STEPHEN H. ALDEN of Albany, for the completion of the road to Portage City by the 1st of

December next. The Contractors, we learn, are to do sil the work and furnish all the materials, except fron, and receive their pay entirely in the securities of the Company, the negotiation of which will be assumed by them. Mr. Chamberlain enjoys an extensive and well-carned reputation as an energetic, persevering, and successful Railroad con-

iractor, of the most ample means. Mr. Alden is well known in this community as a men of large means and rare abilities as a financier and successful operator in stocks and fray that they saw a man come upon the platform and throw off what appeared to be a mass of mail matter. Those letters will probably be re-York of the La. C. & M. R. R. Co. for the last two years, and the Company owes much of its success to the valuable aid they have derived

from his services. The wise determination of the managers of this company that no Director should be in any manher interested in any contract has rendered it necessary for Mr. Aldon to resign his position as one of the Directors of the company.

We kentily congratulate the Company and the community on the certainty, which now seems to exist, that before another winter this GRAND TRUNK RAILEOAD will have been completed for one half the distance from Lake Lichigan to the Mississippi River.

MILWAUKER MUTUAL FIRE INSURANCE COMPANY. -The Tenth Annual Report of this Company, ist published, shows a very good state of affairs The amount of property insured, at the close of the year, was \$1,940,373,55; being an increase over last year of \$75,895. The Premium Notes n hand amount to \$64,617,24; and the whole mount of losses during the past year was only \$2767,88. The Company is one of the oldestin the State, is prudently managed, insures nothing but isolated farm property and dwellings, and takes no risks on stores, mills, taverus, or in blocks of buildings. Thus far, the cost of insurance in this Company has proved very much less than in the best Stock Companies. Every manentitled to a vote in the choice of Directors.--

WALLACE, General Agent. Racine Election-Republican Victory : By the Advocate we learn that the whole vote cast for Mayor was 1,279, and Mr. Case, Republican, had 121 majority. The Mayor, City Clerk, Justice of the Peace, Marshal, City Treasurer, Assessors, the three Supervisors, and seven out of ten Aldermen are Republicans. The Advocate says;

S. S. Daggert is the President: P. B. Hill. Sec-

retary; G. I. FOWLER, Local Agent, and F. M.

This result is the more gratifying, as the Demo-cratic ticket was a clean Barstow ticket and its uccess would have been regarded as an endorse

nent of the State officers.

It is but justice to Mr. Wustum to say that his defeat was not owing to any dissatisfaction with his administration of the city government during the past year. The issue was Republicanism vs. Barstowism, and the result, like the action of the Supreme Court, must increase the confidence of all in the ability of the people to govern themselves and their determination to rebuke frau and violence wherever it may be attempted.

Men who will be true to freedom when they go Kansas, for they have been true to Freedon while in Wisconsiu.

The question now is: Will the friends of Free

Men who will prove themselves quiet, and law-abiding citizens, in fringing on the rights of no man, but also deter nined to allow no infringement on their own.

DEATH OF GEO. W. MEEKER .-- The public were pained and shocked to learn yesterday that Geo. W. Meeker, Esq., had been found dead in his bed at his lodgings in the rear of his office. It was the opinion of the physicians who gave in their evidence at the Coroner's inquest, that he died of pulmonary and cerebral congestion, and his attendant physician stated, that he had suffered here, some one perchance may cry. What is the matter? and the car goes thundering on in its heedless career, and the cause which jarred it for one short moment, is soon forgotten in the excitement of the battle of life.

People's Line.—A line of eight new probablers has re-cently been formed under the above name, to ply the com-ing season between Buffisho and Milwaukee and Chicago touching at intermediate ports. We have securative some particulars in regard to the propellers, and give them to follows: some particulars in regard to the proposers, and give them as follows:

The Globs, formerly a well known freight steamer, has durling the past where, been transformed into a propoller. As a steamer, she registered at the Custom Bonse 1,239 tons. Her bell is sound and staunch, and her repairs are thorough and complete. She is to have two oscillating en-gines or one shaft, and her wheel is to be the Philhidely and pattern, 10% feet in diameter. She is owned by Mr. Max-well, and Gept, Pratt, of this city, the latter of whom will sail her.

pattern, 16½ teet in diameter. She is owned by Mr. Maxwell, and Opc. Pratt, of this city, the latter of whom will wall her.

The T. U. Bradbury is a new propeller, inunched last season, of 545 tons, Custom House measurement. She has had a new cylinder put in during the past winter, and has an oscillating engine. She is owned by Williams, Tamer & Co., and in the hands of Capt. Heavitt, an experienced sexman, will be a reliable and safe craft.

The Energreen City is a new propeller of Söttons, now building by Messra, Lafferner & Stevenson, of Cleveland, as we are informed. She will be command by Captain Owen, hast season of the M. B. Spaulding. The E. O. is owned by Mr. Ball of Cieveland, and Mr. Kirkland of Shebovgan. We bearn that she is well and securely built.

The Iron City 576 tons, is a new propeller now on the stocks of Quarte & Martin, of Cleveland, to cost about 440,000. Messra Hausey & Sinclair, of the same place are the owners. She is to be under command of Capt. Turnouth, formerly of the propeller Ohio.

The Cayachaga 200 tons, built by Luther Mossa, Cleveland; to be commanded by Capt. Beekwith, formerly of the brig Toning America.

The Pittiburgh, new, 600 tons, Luther Mossa builder; under command of Capt. Averil, formerly of the side screw Messner Eaglito.

menmer Ballid.
The Kenosha, new, 600 tons, Luther Moses builder; Capt. The Racine, new, 700 tons, also built by hatter susses; commanded by Capi Brett, formerly of the propeller Oriental.

The latter four have oscillating engines, and two of them will be farmished with the Philadelphia wheel, 10½ fest diameter. Three of the smallest have 28 inch cylinders, with three feet stroke. They are owned by Mesars, Endgra & Holt of this city, and L. Moses of Cleveland,; and are built and fixed up in a staunch and degain manner for the purpose of carrying freight and passengers.

Nothing, it would seem, has been left unione to render this line reliable, and worthy in every respect of public patronage.—Buff. Com. Adverticer, March 31st.

Prof. D. J. Wood: Dear Sit—As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have noted it and known others to use it; that I have for several years been in the habit of using other hair restoratives, and that I find yours vestly superior to any other I know. It entirely cleaness the head from dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance, and all this without discoloring the hands that apply it, or the draws on which it drops. I would therefore recommend its use to every one dealrous of having a fine color and texture of hair.
